The Athens Institute for Education and Research (ATINER) was established in 1995 as an independent academic organization with the mission to become a forum, where academics and researchers - from all over the world - could meet in Athens and exchange ideas on their research and discuss the future developments of their discipline. Since 1995, ATINER has organized about 150 international conferences and has published over 100 books. Academically, the Institute consists of four research divisions and twenty research units. Each research unit organizes at least an annual conference and undertakes various small and large research projects.
